

POSTERS 2008

CHILD AND ADOLESCENT PUBLIC HEALTH

1. Teaching first aid in Danish primary schools

Lotte Groth Jensen
Denmark

2. Do parents' education, perceived discrimination and hopelessness explain worse self-rated health in Roma adolescents compared to the majority population?

Andrea Madarasova Geckova
Slovakia

3. Gender analysis of sexual behavior of senior high-school students in Skopje, R. Macedonia – cross-sectional study

Brankica Mladenovik
Macedonia

4. What do children understand? Communicating health behavior in a European multi-centre study (2007-2011)

Katharina Maria Keimer
Germany

5. Prevalence and trends of alcohol use among school-aged children in Lithuania, 1994–2006

Apolinaras Zaborskis
Lithuania

6. The effect of personality dimensions and alcohol availability on alcohol consumption by young adolescents

Beata Gajdošová
Slovakia

7. Waist circumference and early diagnostics of a metabolic syndrome

Larisa Zavjalova
Russia

8. Does change of non-smoking policies have influence on smoking prevalence decline in Lithuanian school-aged children: HBSC study 1994-2006?

Linas Sumska
Lithuania

9. The prevalence of passive smoking of pupils from rural school communities – a major public health problem

Mocean Floarea
Romania

10. E-interventions for students with hazardous or problematic alcohol use: A pilot study in Antwerp, Belgium

Jessica Fraeyman
Belgium

11. Injuries among young people in Europe

Heli Kumpula
Finland

12. Availability of behavioural determinants of obesity in children in Europe

Anja Zscheppang
Germany

13. Effects of neighborhoods deprivation on adverse birth outcomes in an urban area of Lisbon metropolitan area

Rita Santos
Portugal

14. Monitoring health inequalities in adolescence – The Finnish School Health Promotion study

Pauliina Luopa
Finland

15. Teenager's sexual behavior and drinking style in Finland

Tomi Lintonen
Finland

16. Family relations and the spread of the drugs use among adolescents in region of Koper and Slovenia

Marina Sucic Vukovic
Slovenia

17. Availability of Baby Friendly Hospitals in EU Member States, EEA and Candidate Countries

Grit Neumann
Germany

18. Adolescent's knowlege and attitude before and after two year program: Scaling-up HIV/AIDS Response in Croatia

Vesna Juresa
Croatia

19. The area-based social patterning of injuries among 10 to 19 year olds. Changes over time in the Stockholm County

Anne-Mari Reimers
Sweden

20. Ten years pediatric heart transplantation activity in France

Christelle Cantrelle
France

21. Dating violence among 16- 24 year olds in Denmark – risk factors and health implications

Nina Schütt
Denmark

22. Evaluation of a school-based adolescent health promotion programme with focus on well-being related to stress

Katarina Haraldsson
Sweden

23. Prevalence of asthma among children in central St. Petersburg, Russia

Andrej Grijbovski
Norway

24. Changes in adolescent sexual activity and risk behavior in 1996-2007

Kobra Falah-Hassani
Finland

25. Stresses of parenting in families having preschool-age children

Ausra Petrauskiene
Lithuania

26. The influencing factors on suicide ideation among adolescents in South Korea in 2006
Eunok Park
South Korea

27. Effectiveness of daily physical education at primary schools – project: “fit for pisa” –
Vicky Henze
Germany

28. Prevalence of congenital anomalies in Latvia in 2000- 2005
Anita Villerusa
Latvia

29. Physical activity in adolescents: prevalence and associate factors
António Oliveira
Portugal

CHRONIC DISEASES

30. Impact of Hospital Mortality by Acute Myocardial Infarction (AMI) in Canary Islands (1996-2005)
Maria Dolores Fiuza Perez
Spain

31. Impact of Outdoor Autonomy in Quality of Life of People with Multiple Sclerosis
Luísa Pedro
Portugal

32. Psychosocial predictors of change in the quality of life among coronary patients
Zuzana Skodova
Slovakia

33. Functional disability, pain and depression in early rheumatoid arthritis patients
Jozef Benka
Slovakia

34. Support tool for professionals addressed to integrate Gender Perspective into Health Comprehensive Action Plans
Mercedes Amo-Alfonso
Spain

35. Change in social life is associated with non-compliance in patients after kidney transplantation
Lucia Prihodova
Slovakia

36. Is self-rated health related to the employment status of patients with multiple sclerosis?
Martina Krokavcova
Slovakia

37. Structured primary care for type II diabetes: effects on clinical outcomes and patient education.
Andrea Fokkens
Netherlands

38. Varicose veins surgery assessment in national health services: a comparison between Italy and England

Carlo Cavazzini
Italy

39. Mortality of diabetes patients in Latvia, 2006

Ieva Strele
Latvia

40. Chronic illness and exclusion from the Swedish labour market 1978-2005

Lotta Nylén
Sweden

41. Chronic pain in the Portuguese Population: results from the Fourth National Health Interview Survey

EP Paixão
Portugal

ENVIRONMENT RELATED DISEASES

42. Particulate matter less than 2.5 μm over daily mortality in Madrid, Spain (2003 – 2005)

Cristina Linares
Spain

43. Impact of noise levels over daily mortality in children in Madrid, Spain (2003-2005)

Lorena Flavia Rodriguez
Spain

44. Mid long-term effects of ventilation-study and -advice to improve indoor air quality in primary schools

Merel Linthorst
Netherlands

45. Paediatricians' attitudes, beliefs and knowledge on environmental health in Spain

Trini López
Spain

46. The effect of air-conditioning (AC) on the in hospital mortality during the 2003 heat-wave in Mainland Portugal

Baltazar Nunes
Portugal

47. Environment and Public Health: nitro-compounds role evaluation on the mutagenicity due to urban PM10 air pollution in Torino

Deborah Traversi
Italy

48. Seasonality and periodicities of Rickettsial diseases' hospital admissions in Portugal mainland

Paulo Nogueira
Portugal

49. Toxic cyanobacteria blooms in Portuguese freshwaters - a summarized overview

Paulo Pereira
Portugal

50. Evaluation of oxidative stress in acute and chronic exposure to nitrates/nitrites in South-Western Romania

Ileana Manoela Prejbeanu

Romania

51. Assessment of foetal exposure to lead through biomonitoring in the blood of pregnant women residing in Central Portugal

Vera Geraldes
Portugal

52. Statistic analysis of the prevalence of Legionella pneumophila in water samples from Portugal in the period of 2000 to 2007.

Catarina Mansilha
Portugal

53. Pesticide exposure in greenhouses

Joao Teixeira
Portugal

54. Simultaneous analysis of endocrine disruptors in environmental waters by chromatography/mass spectrometry

Catarina Mansilha
Portugal

FOOD AND NUTRITION

55. Food poverty and eating habits among adolescents in Europe: Do the West-East gap exist?

Gintare Petronyte
Lithuania

56. Monarchal nutrition and life habits, advantages concerning health

Corina-Aurelia Zugravu
Romania

57. Food quality assessment in kindergartens

Christiane Hillger
Germany

58. The association of parents' Sense of Coherence with eating patterns of their children aged 10-11

Carola Ray
Finland

59. An assessment of the dietary intakes of three years old children - study in Krakow

Elzbieta Sochacka-Tatara
Poland

60. Children with food allergies and possibilities of care in Lithuanian schools

Egle Vaitkaitiene
Lithuania

61. The assesment of dieatary behaviour and physical activity as a risk factors in the developing of coronary heart disease

Izet Mašić
Bosnia-Herzegovina

62. Meta-analysis on body weight changes following childbirth

Natalie Schmitt
Germany

63. The sensitivity of body mass index calculated from self-stated weight and height values

Bahar Guciz Dogan
Turkey

HEALTH PROMOTION

64. Driving under the influence of drugs: a register-based study of trends in Finland during 1977–2007

Aini Ostamo
Finland

65. Smoking and occupation: a cross-sectional study among 4,024 young workers from Central Italy

Bruno Federico
Italy

66. The self-system as predictor of engagement in risk-taking behaviour among adolescents

Zuzana Veselska
Slovakia

67. Children's knowledge of the role of environment in health and illness

Bettina Piko
Hungary

68. Surveys of public attitudes towards smoking and tobacco control policy in Russia

Kirill Danishevskiy
Russia

69. The importance of general, social and drinking refusal self-efficacy for alcohol drinking patterns among Slovak university students

Rene Sebena
Slovakia

70. What is new about New Public Health? Focus and governing technologies

Signild Vallgård
Denmark

71. Analysis of Doses Received through Radio-diagnosis by Patients in South-Western Romania

Daniela Mossang
Romania

72. Commissioning 'community well-being' for older people

Kalpa Kharicha
United Kingdom

73. Health of juvenile and adult prisoners in Romania

Poledna Sorina
Romania

74. Brief Intervention in Changing Adults' Nutrition Behaviour: Results from the EVI Study Conducted in Central Finland during 2006-2007

Hanna Kontinen
Finland

75. Relationship of harmful life habits and work environment with the myocardial infarction among women aged 35-64 in Kaunas

Ada Azaraviciene
Lithuania

76. Unplugged: an european school based programme effective in preventing tobacco, alcohol and drug use among adolescents

Serena Vadrucci
Italy

77. Socioeconomic inequalities in preventing cardiovascular risk factors among Italian adults in 2004-2005

Caterina Bianca Neve Aurora Bianchi
Italy

78. Evaluation of a national information and prevention campaign on drug and alcohol use in Belgium

Guido Van Hal
Belgium

79. A multidisciplinary team assesses the potential effects of local policies on the health of the population of Ragusa through Health Impact Assessment tools.

Rosa Giuseppa Frazzica
Italy

80. Woman and smoking: public health insight

Karine Sahakyan
Armenia

81. Health promotion priorities within local authorities: comparative analysis in four municipalities

Nina Simonsen-Rehn
Finland

82. Smoking and quitting patterns in Armenia

Narine Movsisyan
Armenia

83. Mapping Health Promotion

Itziar Vergara
Spain

84. Pattern in socioeconomic inequalities and drinking behaviour in Belgium, from 1997 to 2004

Marina Puddu
Belgium

85. Tackling male obesity: a group-based weight management intervention for men in a deprived area of Scotland

Cindy Gray
United Kingdom

86. Prenatal care and behavioural risk factors for pregnancy evolution in Romania

Violeta Cichirea
Romania

87. Home based Cardiac Rehabilitation: adopting a behaviour change approach to encourage independent exercise

Angela Scriven
United Kingdom

88. The awareness and usage of female condom among registered sex worker in Ankara, Turkey

Deniz Caliskan
Turkey

89. Citizen's centred health information: a critical change engine?

Ana Rita Pedro
Portugal

90. Asthma and the new smoke-free law: what has changed?

João Duarte
Portugal

HEALTH SERVICES RESEARCH

91. Psychosocial work environment and work commitment of primary health care personnel in 2000-2002 in Finland – Does the service provision model play a role?

Anne Koponen
Finland

92. What do we do in public health research: a thematic factorial correspondence analysis of a bibliometric database

Olivier Grimaud
France

93. The effectiveness of primary care after reforms in Poland

Joana Kobza
Poland

94. Gender Aspects in the intensive care of geriatric patients (Carinthia, Austria; 2003)

Astrid Knopp
Austria

95. Opening the 'black box': A study of the implementation process of nationally agreed clinical guidelines

Dimitrios Spyridonidis
United Kingdom

96. The decision to perform Caesarean section in Russia

Victor Maltcev
United Kingdom

97. Are there regional differences in mortality amenable to health care in Finland?

Kristiina Manderbacka
Finland

98. Municipal variation in health and social service use in the last two years of life among old people

Leena Forma
Finland

99. Potential reduction of length of stay in Dutch hospitals

Ine Borghans
Netherlands

100. How do consumers process and evaluate comparative health care information? A qualitative study using cognitive interviews

Michelle Hendriks
Netherlands

101. Induced abortion counselling at public sector women's clinics in St. Petersburg, Russia, in 2005

Meri Larivaara

Finland

102. A set of three indicators on Femur –fracture treatment based on routinely collected data: Results from 4 Italian regions (1999-2006)

Rosa Gini
Italy

103. Disease Management in Europe. Position Paper of the European Forum for Primary Care

Stefan Greß
Germany

104. A review of the studies on genetic screening

Silvia Longhi
Italy

105. Development and Validation of a Set of Quality Indicators for Comprehensive Care in Cardiovascular Disease in Argentina

Andres Pichon Riviere
Argentina

106. Socio-economic differences in utilisation of health-care services by the elderly in Belgium

Sarah Hoeck
Belgium

107. Mental Healthcare in Spain: Is necessity driving variations in Hospitalization Rates?

Felipe Aizpuru
Spain

108. Use of conventional, complementary and alternative treatments by patients facing chronic illness: A model for patient-centred care?

Petra Plunger
Austria

109. Inappropriate emergency department (ED) use: physician point of view and patients outcomes. A study in 4 emergency departments in France

Joël Ladner
France

110. The influence of news-events on health after a disaster: a longitudinal study in general practice

Petra ten Veen
Netherlands

111. Underlying risk for 30-day in-hospital mortality among patients admitted with acute myocardial infarction in Portugal (2005-2006)

Valeska Andreozzi
Portugal

112. Reasons for heavy use of dental services in a Metropolitan Public Dental Service in Finland

Annamari Nihtilä
Finland

113. Effect of waiting time reform on the provision of operations

Hennamari Mikkola
Finland

- 114. Operational effects of waiting time reform in specialized care**
Ulla Tuominen
Finland
- 115. Physicians views support in the sick listing process as positive**
Ingemar Petersson
Sweden
- 116. Health and social carers' strategies of coping with domestic violence against older people in Poland – study among organizations that provide services to victims of abuse (“Breaking the taboo” European project)**
Barbara Wozniak
Poland
- 117. Health Care in Poland in elderly patients' opinion**
Tomasz Ocetkiewicz
Poland
- 118. Health services utilisation by patients with eczema. Analysis of a population-based administrative health-care and prescription database from Germany**
Jochen Schmitt
Germany
- 119. Regional differences in human resources of school welfare services**
Kirsi Wiss
Finland
- 120. Public knowledge and opinion on organ donation in Hungary**
Eva Susanszky
Hungary
- 121. Bone marrow donation: the donors' perspective in a European joint study**
Zsuzsanna Szanto
Hungary
- 122. Service Expenditures of School Health Care in Finland**
Hanna Happonen
Finland
- 123. Health care coordination mechanisms. Opinions of managers and health professionals of integrated health care organizations**
Diana Henao Martínez
Spain
- 124. Adding the view of citizens, professionals and managers to the health service planning in Catalonia (Spain)**
Josep Fuste
Spain
- 125. Moving towards multidisciplinary primary care collaboration**
Johan Hansen
Netherlands
- 126. A Franco-American comparison of the nurse practitioner role**
Galadriel Bonnel
France
- 127. The variance of severity adjusted mortality rates of intensive care units and its relevant factors in Korea**
EunJung Lee

South Korea

128. Is health care in Eastern Europe privatising? An overview of health care delivery privatisation in Bulgaria and Romania

Rositsa Koleva-Kolarova
Bulgaria

129. The Manchester Blood Borne Virus Research Partnership. Manchester, UK

Arpana Verma
United Kingdom

130. Activity-based costing as a practical method for clinical governance: the setting of Radiotherapy at the Campus Bio-Medico University Hospital in Rome

Tommasangelo Petitti
Italy

131. Hesitative introduction of e-mail consultations in General Practice

Robert Verheij
Netherlands

132. Job satisfaction among doctors and nurses working in primary health care in Serbia in 2007

Vesna Korac
Serbia

133. The Evaluation of Associations between Health and Performance Metrics Using the Corporate Health and Performance Group (CHAP)

Kevin Holland-Elliott
United Kingdom

134. Tuning primary care services to demand of local populations

Dinny de Bakker
Netherlands

INFECTIOUS DISEASES CONTROL

135. Registration during major outbreaks of infectious diseases

Catherine Waegemaekers
Netherlands

136. Knowledge and attitudes of health care provider toward aids

Aliye Mandiracioglu
Turkey

137. Successful implementation of opting-out strategy for HIV testing; evaluation of four years of standard HIV testing in an STI clinic

Henriette Ter Waarbeek
Netherlands

138. High performance and acceptability of self-collected anal swabs for diagnosis of Chlamydia trachomatis and Neisseria gonorrhoeae in men and women

Henriette Ter Waarbeek
Netherlands

139. Rational Vaccination Policies- Results of an immunization experts' DELPHI discussion

Brigitte Piso

Austria

140. Social factors and compliance to TB active surveillance in homeless people in Rome

Stefania Bruno
Italy

141. Is it proper to evaluate the effectiveness of operating rooms' sanitation?

Maria Luisa Cristina
Italy

142. Pandemic Influenza Preparedness – Interoperability between the Autonomous Region of Galicia and Northern Region of Portugal

Delfina Antunes
Portugal

143. Preventing seasonal influenza 2007-08, Viana do Castelo, Portugal: nonpharmacological public health measures

Carlos Daniel Pinheiro
Portugal

144. Surveillance of School Absenteeism in the Northern Region of Portugal - a Pilot Study

Ana Correia
Portugal

145. Surveillance for influenza pandemic preparedness in Portugal, 2007

Ana Correia
Portugal

146. A national program for TB screening in Dutch prisons

Merel Lindhorst
Netherlands

147. Social response in preparing for Pandemic Influenza in Portugal: Awareness, risk perceptions, and attitudes towards a pandemic threat in five large private organizations

Marta Sampayo
Portugal

148. Pandemic Influenza Preparedness in the Northern Region of Portugal – Intersectorial Simulation Exercise

Delfina Antunes
Portugal

149. Meningococcal C vaccination: a strategy to immunise adolescents

Assunção Frutuoso
Portugal

INJURY PREVENTION AND SAFETY PROMOTION

150. Parental awareness and knowledge regarding home hazards and their strategies to prevent childhood injuries

Juliana Habib
Austria

151. Violence against women in Romania – classifications and patterns

Cornelia Rada

Romania

152. Injuries in childhood and its association with the socioeconomic and gender inequalities

Richard Allan Dale
Sweden

153. Drinking and Injury in the Light of Emergency Admissions: Interview Based Study in a Swiss Emergency Department

Hervé Kuendig
Sweden

MIGRANT HEALTH

154. Educational inequalities in metabolic syndrome vary by ethnic group in the Netherlands: Evidence from the SUNSET study

Charles Agyemang
Netherlands

155. Perceived health among Roma and non-Roma adolescents: does socio-economic status explain the differences between the ethnic groups?

Peter Kolarcik
Slovakia

156. Medical intervention of the Office for Mobile Population of Hellenic Center For Diseases Control And Prevention at immigrant camps from 09/01/2007 to 22/12/2007

Olga Adrami
Greece

157. Medicine use among ethnic minorities in Denmark

Nana Folmann Hempler
Denmark

158. Non-participation in breast cancer screening in Flanders, Belgium

Sofie Van Roosbroeck
Belgium

159. A pilot study of the migrants' satisfaction and knowledge of the Finnish health services

Hannamaria Kuusio
Finland

160. Inequalities and health: the Latino American community in Genoa

Paolo Orlando
Italy

161. Accessibility of migrants by means of information events regarding addiction prevention using active and passive recruitment strategies in Hannover (Germany)

Ute Gerken
Germany

162. Preventive behaviour of Russian- and Turkish-speaking migrants in Hanover (Germany) and its impact on their quality of life

Ulla Walter
Germany

163. Hypertension Awareness, Treatment and Control Among African and Brazilian Immigrants in Portugal – a population-based study

Paulo Jorge Nicola
Portugal

164. Breastfeeding initiation and duration in African and Brazilian immigrant Women in Portugal

Violeta Alarcão
Portugal

165. Existence of probable psychological distress in African and Brazilian immigrants in Portugal.

Marta Godinho
Portugal

166. Migrants: health problems – pathologies and risk factors

António Tavares
Portugal

167. Comparative description of health status, determinants and health services use among migrant population in Portugal in the National Health Interview Survey (2005/2006)

Carlos Matias Dias
Portugal

PUBLIC HEALTH ECONOMICS

168. Beyond socio-economic health inequalities: infant mortality in Western Europe

Jouke Van der Zee
Netherlands

169. The missing public health perspective in health economics

Lars Ehlers
Denmark

170. Health costs evolution in Brazil: an analysis utilizing the model of components price and quantity

Rodrigo Leal
Brazil

PUBLIC HEALTH EPIDEMIOLOGY

171. Adapting a Markov simulation model for forecasting the requirements of CARPs and assessing scenarios for implications of drug eluting stents and changes in trends for CHD incidence

Haider Mannan
Australia

172. Emergency data-based syndromic surveillance in Europe

Thomas Krafft
Germany

173. How can public health reporting contribute to “health in all policies”?

Maria Auer
Austria

174. Effect of smoking on life expectancy in Lithuania

Ramune Kalediene
Lithuania

175. Determinants of self-rated health in women: A population-based study in Armavir marz, Armenia, 2001 & 2004

Anahit Demirchyan
Armenia

176. HAPIEE study: predictors of impaired overall quality of life and poor perceived health among Lithuanian women of Kaunas city

Migle Baceviciene
Lithuania

177. Alcohol-related mortality and years of life lost in Lithuania – inequalities by age, sex, and place of residence

Skirmante Starkuviene
Lithuania

178. Mortality from infectious diseases in Lithuania: critical points in time and place

Snieguole Kaseliene
Lithuania

179. HAPIEE study: high prevalence of arterial hypertension among Lithuanian urban population

Abdonas Tamosiunas
Lithuania

180. Psychosocial work environment and symptoms of angina pectoris: comparing British and Finnish middle-aged white-collar employees

Tea Lallukka
Finland

181. Social vulnerability and victims of interpersonal violence

Catherine Sass
France

182. The prevalence of smoking among males in Kaunas City and its prognostic value for survival

Albertas Dauksa
Lithuania

183. Relationships between job insecurity, unemployment and health

Emilie Labbe
France

184. Spatial analysis of the determinants associated to death rates by ischemic heart disease in mainland Portugal (2000-2004)

Rita Nicolau
Portugal

185. Economic difficulties and common mental disorders among Finnish and British employees: the contribution of social and behavioural factors

Elina Laaksonen
Finland

186. Educational inequalities in the amount of alcohol consumption in different European regions

Anton Kunst
Netherlands

- 187. The impact of sleep complaints on sickness absence**
Ossi Rahkonen
Finland
- 188. Ethnic differences in subjective health and health behaviour among Lithuanian adult population**
Vilma Kriaucioniene
Lithuania
- 189. Physical nicotine dependence among Lithuanian adult smokers**
Jurate Klumbiene
Lithuania
- 190. Salutogenetic and pathogenetic factors of equal importance to predict mortality in a Swedish general population**
Ingemar Andersson
Sweden
- 191. Drunk driving in Finland between 1989 and 2007**
Antti Impinen
Finland
- 192. Socioeconomic differences in the association between sickness absence and mortality**
Thomas Lund
Denmark
- 193. Seniors dental health between 1999 and 2004 in France**
Emilie Labbe
France
- 194. Conceptual framework of sickness absence and return to work, focusing on both the individual and the contextual level**
Merete Labriola
Denmark
- 195. Inequalities in HIV: findings from enhanced surveillance of HIV/AIDS in the North West of England**
Leighton Jones
United Kingdom
- 196. Effects of the Danish iodine fortification programme on the use of thyroid medication**
Charlotte Cerqueira
Denmark
- 197. Death attributable to tobacco smoking in Italy**
Federica Mathis
Italy
- 198. Exposure and selection mechanisms in the disability pension process: a comparison of two Swedish groups of disability pensioners**
Sofia Reinholdt
Sweden
- 199. Oral health-related quality of life in Czech population**
Lenka Hodacova
Czech Republic

- 200. The EUPHORIC project: outcome indicators collection in Europe. Results of the second phase (pilot)**
Valerio Manno
Italy
- 201. A web based system for dynamic access to health data and indicators**
Marco Dalmasso
Italy
- 202. The effects of wealth and income on self-rated health**
Akseli Aittomäki
Finland
- 203. The Association Between Oral Health And Income Inequality, According To Income Levels, In Brazil 2003**
Roger Keller Celeste
Sweden
- 204. Mortality risk in relation to select dimensions of psychological health in a population sample of elderly residents in Kraków**
Piotr Brzyski
Poland
- 205. Patterns of alcohol consumption in the elderly: trends (1998-2006) in France**
Bienvenu Bongue
France
- 206. Sexual Behaviour of Undergraduate Students from Timis County, Romania**
Sorin Ursoniu
Romania
- 207. Smoking and risk of stroke mortality in Lithuanian urban male population**
Kristina Jureniene
Lithuania
- 208. Shift-Work and Insomnia in a Portuguese sample of policemen**
Odete Amaral
Portugal
- 209. Risk Factors for Low Birth Weight in Gabrovo Regional Hospital, Bulgaria (2005-2006)**
Gena Grancharova
Bulgaria

Simone Chiado' Piat
Italy
- 211. Measuring the dimensions of social exclusion in public health research**
Deborah Baker
United Kingdom
- 212. Evaluating the use of respondent driven sampling among sex workers and injecting drug users in Tallinn, Estonia**
Anneli Uusküla
Estonia
- 213. Influence of smoking on oral health**
Jindra Smejkalova

Czech Republic

214. The variation in the distribution of physical activity between municipalities in Denmark

Charlotte Glümer
Denmark

215. Prevalence of Helicobacter pylori infection in a Portuguese urban sample (1999-2003)

Bárbara Peleteiro
Portugal

216. Risk factors for domestic violence against pregnant women

Isabel Pereira
Portugal

PUBLIC HEALTH GENOMICS

217. To what extent is CVD riskfactors associated with childhood and adulthood socioeconomic position? The Swedish 1969 conscription cohort

Tomas Hemmingsson
Sweden

PUBLIC HEALTH PRACTICE AND POLICY

218. National quality programme Improving prevention; Collaboration in achieving high quality prevention: ten reasons for succes

Ellen Vermeulen
Netherlands

219. Knowledge transfer for Health Impact Assessment: a case study in transport

Hilary Thomson
United Kingdom

220. Proposal for improving the effectiveness of HFE genetic test prescription

Zuleika Saz-Parkinson
Spain

221. A policy to support the medical innovation strategies in hospitals in France

Gregoire Jeanblanc
France

222. Nanobiotechnology as a legal challenge to health innovation

Sara Vera Jardim
Portugal

223. Formal and informal care among elderly in Italy: a cross-sectional study

Alessandra Battisti
Italy

224. Social inequalities in smoking habits across 38 municipalities in the Capital Region of Denmark

Helle Hilding-Nørkjær
Denmark

225. Public Health doctors in Italian prevention departments: a proposal for future Public Health (2007)

Silvio Brusaferrò
Italy

226. Towards the vaccination process accreditation in an Italian regional health service

Silvio Brusaferrò
Italy

227. European public health advocacy at the regional level: the North West of England Health Brussels Office

Chris White
Belgium

228. A qualitative risk analysis model to understand decision-making in obesity prevention

Cécile Knai
United Kingdom

229. Application Of The Neuman And The Omaha Systems Models In Providing Continuity Of Care

Melek Coşan Yılmaz
Turkey

230. The role of health examination surveys in determining priorities for diabetes and CVD prevention: experience from Krakow, Poland

Magdalena Szurkowska
Poland

231. The promotion of (e) health literacy in the in the national strategy 'eHealth' Switzerland

Therese Stutz Steiger
Switzerland

232. The small areas analysis in health planning. The Catalan Health Plan 2010 as an example

Vicente Martínez Beneyto
Spain

233. Health Profiles: promoting health advocacy and health literacy

Manuela Mendonça Felício
Portugal

234. Development of an Urban Health Section in EUPHA

Arpana Verma
United Kingdom

PUBLIC MENTAL HEALTH

235. Negotiating difference and belonging in families from mixed racial, ethnic and faith backgrounds in Britain: Implications for mental health

Shuby Puthussery
United Kingdom

236. Sense of Coherence in Caregivers of the Severely mentally ill – Pathways for Mental Health Promotion

Manuel Gonçalves Pereira
Portugal

237. Cultural dynamics in sexual and reproductive health of immigrant women

Sonia Dias
Portugal

238. The prevalence of the diagnosis of depression in data of health insurances: does it reflect epidemiologic reality?

Anke Bramesfeld
Germany

239. The prevalence of deliberate self harm among 15-17 year old Lithuanian adolescents

Agne Laskyte
Lithuania

240. How Lithuanian adolescents tend to explain the reasons of deliberate self harm?

Nida Zemaitiene
Lithuania

241. Urban Stress, Health and Quality of Life in the Lisbon Metropolitan Area (2004)

Sandra Aguiar
Portugal

242. Mental health of medical students in Hungary

Éva Bíró
Hungary

243. Misclassification and the use of register based indicators for depression

Karsten Thielen
Denmark

244. Factors Affecting Discrimination Toward Mental Illness

Sangjun Moon
South Korea

245. What connects poverty and psychological distress? County level analysis in croatia

Ognjen Brborovic
Croatia

246. The mental health state among the children of the different orphanages in Georgia

Nino Naneishvili
Georgia

247. Risk factors for depression in a community sample of Portuguese adolescents

Nélio Veiga
Portugal

SOCIAL SECURITY AND HEALTH

248. The impact of common health problems: a bio-psychosocial approach

Rhiannon Buck
United Kingdom

249. The prevalence of work-related stress, and its association to self perceived health and sick leave, in a cohort of employed Swedish women, in 2004 - 2005

Kristina Holmgren
Sweden

- 250. Sickness presence is an important warning signal. A Swedish questionnaire study**
Göran Ejlertsson
Sweden
- 251. New instruments for the assessment of motivational determinants of return to work after sickness absence**
Angelique De Rijk
Netherlands
