Vienna Declaration

EUPHA and ÖGPH have set up the Vienna Declaration to reiterate their commitment to the principles of the Ottawa Charter on Health Promotion, taking into account new and emerging threats to public health that have arisen in the three decades since the adoption of the Ottawa Charter. The Vienna Declaration calls on all parts of the public health community, in Europe and beyond, working at all levels, local, national, regional and global, to recognise the multi-tiered determinants of health and opportunities for action.
