ABOUT US

The 9th European Public Health Conference is organised by the EPH Conference Foundation with co-organisation by the European Public Health Association (EUPHA) and the Österreichische Gesellschaft für Public Health (ÖGPH).

EPH CONFERENCE FOUNDATION

The EPH Conference Foundation was established at the initiative of the European Public Health Association (EUPHA) with the aim to promote greater health and well-being for the population in Europe by strengthening the field of public health and reducing health inequalities through capacity building and knowledge building.

The EPH Conference Foundation organises annual scientific conferences on public health in Europe bringing together public health professionals, researchers, education and training specialists and policy makers from across Europe. In organising the conference, the EPH Conference Foundation works together in partnership with a wide array of international public health organisations.

EUPHA

EUPHA is an umbrella organisation for national (public) health associations in Europe. EUPHA is an international, multidisciplinary, scientific organisation, bringing together around 16,000 public health experts from all European countries. EUPHA unites 37 national associations of public health, 20 institutional members and 5 individuals from 42 countries. EUPHA aims to be a leading scientific and independent voice in the field of public health and health services by building capacity and knowledge in the field of public health and health services and by supporting practice and policy decisions through scientific evidence.

ÖGPH

ÖGPH (Austrian Public Health Association) celebrates its 20th anniversary this year. It is a multi- and interdisciplinary scientific association that promotes the development of health-oriented structures in societies and policies. The Austrian Public Health Association joined EUPHA in 2000.

*Österreichische
Gesellschaft für
Public Health*

WELCOME TO VIENNA 2016

The European Public Health Conference Foundation, the European Public Health Association (EUPHA) and the Austrian Public Health Association (ÖGPH) are honoured to welcome you to the 9th European Public Health Conference in Vienna.

We are excited to present you this year again with a fully packed programme of inspiring and informative sessions. We expect the attendance of over 1600 public health researchers, policymakers and practitioners coming from more than 80 countries, making this conference the most important Public Health Conference in Europe and the biggest we have organised so far.

The theme for the conference is 'All for Health – Health for All!'. This expresses our commitment that the progress of nations is best captured by the health of their people. Better health is the basis for achieving the goals we share as societies. It gives us longer, high quality years of life. It allows us to engage in productive and rewarding employment. It provides us with the incentives and ability to benefit from lifelong learning. It strengthens families and communities. And it offers freedom from fear, the fear of premature death or disability, poverty, homelessness, or social exclusion. And when we say health for all, we mean just that. Not just the rich and powerful, but the poor, the migrant, the prisoner, and everyone else who is currently marginalised and excluded from our societies.

All for health also means exactly what it says. Everyone has a role to play. Governments, obviously. No one questions their obligation to protect their people from the threat of armed conflict. So we should equally expect them to offer protection from other threats, including environmental degradation and health damaging industries. But everyone has a role to play. Civil society can make the invisible visible and can hold governments to account. Individuals can advocate for healthy public policies wherever they are able to exert influence. Our conference offers an opportunity to learn from the many experiences of those who have made a difference, in schools and offices, in local communities, and in national governments. Come, listen, and be inspired.

We will also be celebrating 30 years since the adoption of the Ottawa Charter. This provided the basis for modern health promotion, inspiring and enthusing leaders who have made an enormous difference to the conditions in which we live and work. Its principles are as valid today as ever. However the challenges that we face in today's world have changed. We have made enormous progress in some areas, with spectacular improvements in health overall. However, we now have a much better understanding of the threats that we now face, and in particular the concentration of power in the hands of those that is the pursuit of profit far above that of better health.

The Vienna Declaration sets out the new challenges and opportunities. It takes the core elements of the Ottawa Charter and applies them to the 21st-century. We hope that it will inspire the same commitment to action as the Ottawa Charter, providing a framework for public health action in the years ahead.

With the help of the co-organisers, our partners, exhibitors and supporters, we present you an exciting programme of workshops, oral and pitch presentations and poster walks. This is all offered in the wonderful setting of Vienna giving you the possibility to share information, knowledge and innovative ideas with your colleagues from around the globe.

Thomas Dorner
Chair of
Vienna 2016

Conference office

THE VIENNA DECLARATION

Linked to the Vienna 2016 conference, EUPHA and ÖGPH – together with many partners meeting at this conference, reiterate their commitment to the principles of the Ottawa Charter, renewed in the Vienna Declaration to take account of new and emerging threats to public health that have arisen in the three decades since it was adopted.

The ideas set out in the Ottawa Charter have stood the test of time. As with so much of the Charter, these remain relevant today. However, as the world has changed, so should the responses to this changing environment adapt.

PUBLIC HEALTH FUNCTIONS

The Ottawa Charter identified a set of core health promotion functions, updated and renewed by the Vienna Declaration.

■ Information, or Using Data to Give Voice to the Weak

The public health community must ensure that advances in the use of data do not further exclude the most vulnerable in society.

■ Advocacy, for change

The public health community must recognise that advocacy requires specific skills, in framing the narrative and communicating it effectively, and a commitment to act rapidly.

■ Good Governance, for the Protection of Health

The public health community must promote the concept of Health in all Policies, at all levels of government.

The public health community has a key role to play in holding governments, at all levels, to account for their actions.

■ Capacity, to bring about change

The public health community must call for a sustained and lifelong investment in training.

You will have the possibility to sign the support letter of the Vienna Declaration at the Vienna conference from 9-12 November at the EUPHA exhibition booth at the Exhibition Hall.

For the full text of the Vienna Declaration please go to

PLENARY SPEAKERS

NATASHA AZZOPARDI-MUSCAT, MALTA

Natasha Azzopardi-Muscat is President-Elect of EUPHA and will commence her mandate as EUPHA President in November 2016. She is a founding member and former President of the Malta Association of Public Health Medicine. Natasha is a former Chief Medical Officer for Malta. As a public health civil servant she occupied various senior positions in the Ministry of Health in Malta between 2001 and 2013. She currently works as a Consultant in Public Health Medicine at the Directorate for Health Information and Research and is a resident academic at the University of Malta. Her main research interests are European health policy and health systems in small states. She has authored several publications on these topics.

ELODIE BESNIER, UNITED KINGDOM

Elodie Besnier is an International Health Policy Officer for Public Health Wales' International Health Coordination Centre. She graduated with a Master in International Affairs-International Public Management with a concentration on Global Health from Sciences Po Paris School of International Affairs. Before joining Public Health Wales, Elodie has worked in the sectors of European and global health and development for NGOs in Europe and the US. She has experience in advocacy and policy analysis on topics such as access to medicines, HIV/AIDS, women's health. In her current role, Elodie supports the work of the IHCC regarding European policies and funding opportunities as well as international cooperation and sustainable development.

EMMA BYSTRÖM, SWEDEN

Emma Byström has a Bachelor of Science in Biology from Bates College (2010) and a master of public health from Lund University (2013). Key areas of interest include attitudes towards vaccinations, epidemiology, immunizations and global health. The master thesis was about tailoring immunization programs for "Hard-to-Reach" communities in Sweden. Previous working experience includes an internship at WHO Europe in Copenhagen and working as research assistant at Karolinska Institute, Stockholm. Emma currently works as a public health scientist at the Public Health Agency of Sweden in the Unit for Vaccination Programs, primarily with surveillance of infectious diseases and attitudes towards vaccinations.

ROD COLLINS, UNITED STATES

Rod Collins is the Director of Innovation at Optimity Advisors. Rod is a leading expert on the next generation of business management and a regular blog contributor to the Huffington Post. He is also the author of Wiki Management: A Revolutionary New Model for a Rapidly Changing and Collaborative World, which presents the results of Optimity's research into the innovative tools and practices used by a new breed of business leaders to sustain extraordinary performance in a world reshaped by accelerating change. Rod is the former Chief Operating Executive of the Blue Cross Blue Shield Federal Employee Program, one of the USA's largest and most successful healthcare business alliances. Under his leadership, the business experienced its greatest five-year growth period in its 50-plus year history.

KATARZYNA CZABANOWSKA, THE NETHERLANDS

Katarzyna Czabanowska is Associate Professor at the International Health Department, Maastricht University, the Netherlands. She directs Governance and Leadership in European Public Health programme. Her research focus is on public health workforce development in Europe, public health leadership, women leadership in health care and competence-based education. Her research is reflected in many publications including articles published in peer reviewed journals, books, book chapters. She holds honorary positions at: Jagiellonian University Medical College, Krakow, Poland and the University of Sheffield and the IU Richard M. Fairbanks School of Public Health, Indiana, the US. She is a member the ASPHER Executive Board, President of the EUPHA Working Group on Public Health Leadership and a winner of the Polish Person 2015 in the Netherlands Award in the category Science and Technique.

PLENARY SPEAKERS

THOMAS DORNER, AUSTRIA

Thomas Dorner is Associate Professor at the Centre for Public Health, Institute of Social Medicine at the Medical University of Vienna. He has studied human medicine and graduated as master of public health. His lecture qualification theses was written about 'social determinants for health resources, health behaviour, and morbidity, and consequences for social medicine and public health'. Since 2012 he is president of the Austrian Public Health Association (ÖGPH). His main research topics are epidemiology, health care research, social determinants of health, health behaviour and lifestyle, physical activity, health promotion in the elderly, frailty. He is guest researcher at the Department of Clinical Neuroscience, Karolinska Institutet in Stockholm. He is member of the Steering Committee of EUROPREV (European network for prevention and health promotion in primary care).

ARMIN FIDLER, AUSTRIA

Armin Fidler is Senior Lecturer, European Master in Health Economics and Management (Universities of Bologna, MCI Innsbruck, Oslo and Rotterdam). He joined the World Bank in 1993 and eventually was appointed Lead Advisor for Health Policy and Strategy. He served on the Board of the Global Fund and GAVI. He holds a MD degree from the University of Innsbruck and MPH and MSc. degrees from Harvard University. He earned certificates in Macroeconomic Management from the IMF's Joint Vienna Institute, in Management from the Harvard Business School and in Public Finance and Welfare Economics from the LSE. He is an Adjunct Faculty at the George Washington University in Washington DC. Prior to joining the World Bank, he served as for PAHO/WHO, based in Mexico and was admitted to the Epidemic Intelligence Service (EIS) at the US Centers for Disease Control and Prevention (CDC).

JOSEP FIGUERAS, EUROPEAN OBSERVATORY ON HEALTH SYSTEMS AND POLICIES

Josep Figueras is the Director of the European Observatory on Health Systems and Policies and head of the WHO European Centre on Health Policy in Brussels. In addition to WHO, he has served other major multilateral organisations such as the European Commission and the World Bank. He is a member of several advisory and editorial boards and has served as advisor in more than forty countries within the European region and beyond. He is honorary fellow of the UK Faculty of Public Health, has twice been awarded the EHMA prize, and in 2006 received the Andrija Stampar Medal. He was head of the MSc in Health Services Management at the London School of Hygiene and Tropical Medicine and he is currently visiting professor at Imperial College, London. His research focuses on comparative health system and policy analysis.

BIRGER FORSBERG, SWEDEN

Birger Forsberg, is head of the Health Development at the Stockholm County Council, covering public health and health services for a population of 2.2m people. He is also Associate Professor in International/Global Health at Karolinska Institutet. He has work experience from more than 25 countries as a staff member with WHO and consultant to international organisations. For the World Bank he worked on the interaction between the public and private sector in health services in various contexts and countries. He has a long experience on health care planning and evaluation in Swedish health services. Since 2007 he was engaged in work on resource allocations models for prevention of HIV/AIDS in Sweden under contracts from the Public Health Agency of Sweden. Birger Forsberg is Chair of the 10th EPH Conference to be held in Stockholm, Sweden, from 1 until 4 November 2017.

MATTHEW FOX, UNITED STATES

Matthew Fox is Associate Professor in the Departments of Epidemiology and Global Health at the Boston University School of Public Health. His research interests include treatment outcomes in HIV-treatment programs, infectious disease epidemiology (with specific interests in HIV, pneumonia, and malaria), and epidemiologic methods. Dr. Fox is currently studying ways to improve retention in HIV-care programs in South Africa from the time of testing HIV-positive through long-term treatment. He also uses large laboratory databases to study the impacts of policy changes on HIV treatment outcomes in South Africa. Dr. Fox also does research on quantitative bias analysis and co-authored a book on these methods, *Applying Quantitative Bias Analysis to Epidemiologic Data*.

GAUDEN GALEA, WHO EURO

Gauden Galea is the Director of the Division of Noncommunicable Diseases and Promoting Health through the Life-course, in WHO EURO. He is a public health physician, who has been at the European Regional Office of WHO since January 2011, but has worked for WHO since 1998. He has contributed to the work on developing a national stepwise approach to NCDs that was first implemented in the Pacific Islands, to the compilation of evidence linking NCDs to the global development agenda that helped bolster the arguments in support of the UN High Level Meeting on NCDs, and more recently to the renewal of life-course approaches to health promotion and public health that is being applied in WHO/Europe to action plans on child and adolescent health, child maltreatment, women's health, and a forthcoming action plan on men's health in Europe.

IGOR GRABOVAC, CROATIA

Igor Grabovac graduated from School of Medicine, University of Zagreb in 2013. During his studies he made several research projects regarding discrimination based on sexual orientation in the healthcare settings. After graduation he finished his internship at the Andrija Štampar Institute in Zagreb and started working as a university lecturer. From 2014 he is enrolled in the PhD Programme in Public Health at the Medical University of Vienna where he is also currently employed as a scientific associate dividing his time between the Institute of Occupational Medicine and the Institute of Social Medicine while still teaching undergraduates. Igor would like to end health disparities caused by socio-economic differences on a global level by promoting knowledge and creating grass-roots movements by bridging the gap between NGOs and the academia.

SALOME VON GREYERZ, SWITZERLAND

Salome von Greyerz counts the promotion of Health Literacy to the key aspects of her work. She works for the Swiss Federal Office of Public Health since 2002, where she heads the Division of Health Strategies. She has been leading several key projects, among others, the new legislations for the electronic patient record and for cancer registration, the "National Strategy on Dementia", the Strategy to promote palliative care and the Strategy to promote mental Health and suicide prevention. Salome was educated as a Pharmacist. She held a PhD in Immunology and an Executive Masters in Applied Ethics and Management of Health Care Systems.

PETER GROENEWEGEN, THE NETHERLANDS

Peter Groenewegen is senior researcher and former director of the Netherlands Institute for Health Services Research NIVEL and part-time professor at Utrecht University. He is lead of the EUPHA Research Pillar and member of the Executive Board of the European Forum for Primary Care (EFPC). He is a sociologist by education. His main research interests include international comparative studies, health policy and health care organisation, and research utilization and societal impact of research. He is the (co-) author of numerous international articles on primary care, on disease management, on organizational change in health care, and on public trust in health care providers and institutions.

RICHARD HORTON, UNITED KINGDOM

Richard Horton is Editor-in-Chief of The Lancet. He qualified in physiology and medicine with honours from the University of Birmingham in 1986. He joined The Lancet in 1990, moving to New York as North American Editor in 1993. Richard was the first President of the World Association of Medical Editors. He is an honorary professor at the London School of Hygiene and Tropical Medicine, University College London, and the University of Oslo. From 2011 to 2015, he was co-chair of the UN's independent Expert Review Group on Information and Accountability for Women's and Children's Health. Richard received the Edinburgh medal in 2007 and the Dean's medal from Johns Hopkins School of Public Health in 2009. He has written regularly for The New York Review of Books and the Times Literary Supplement.

PLENARY SPEAKERS

ALLAN KRASNIK, DENMARK

Allan Krasnik, is Professor of Public Health and Health Services Research at University of Copenhagen with special attention to prevention, health care innovations and reforms and their effect on social and ethnic equity in health care access and health outcomes. Since his first studies in 1972 he has taken interest in migrant health issues and initiated as well as participated in many national and international, comparative studies on inequalities in health care access and utilization and outcomes in terms of health perceptions, health behaviour and health status. He is Director of the Danish Research Centre for Migration, Ethnicity and Health (MESU) in Copenhagen. Allan Krasnik is presently President of the EUPHA Section for Migrant and Ethnic Minorities Health.

TEODORA KRUMOVA, BULGARIA

Teodora Krumova is a Roma activist from Bulgaria. She holds an MA in history and archaeology from Veliko Turnovo University, Bulgaria, and an MA in medieval studies from Central European University, Budapest, Hungary. Teodora Krumova is a Programme Director of Center Amalipe in Bulgaria and one of the co-authors of the Roma Culture Classes Program, which is being implemented in more than 250 Bulgarian schools. She has also written a number of publications on Roma history and culture, textbooks on Roma culture, evaluation reports on the impact of national and European policies on the Roma community, and other scholarly publications. She is an evaluation expert for applying the model of social accountability and community monitoring of healthcare services in the Roma community.

EVELYNE DE LEEUW, AUSTRALIA

Evelyn de Leeuw is Director, Centre for Health Equity Training Research and Evaluation (CHETRE) University of New South Wales, Sydney, Australia. She holds a Masters in Health Policy and Administration (University of Maastricht, The Netherlands), MPH at the University of California at Berkeley in comparative health systems research and a PhD in health political science (Maastricht). In November, 1986, she attended the conference in Ottawa where the eponymous Charter was developed. Since that same year, she has been active in the international Healthy Cities movement. From 1992 to 2001 she held the position of Director of the WHO Collaborating Centre for Research on Healthy Cities at the University of Maastricht. She is Editor-in-Chief of the international peer-reviewed journal Health Promotion International. She has published several books on policy approaches to health promotion and over 100 peer-reviewed articles.

RACHEL LUCAS, PORTUGAL

Rachel Lucas graduated as a PharmD in 2004 and went on to complete a Masters in Epidemiology and then a PhD in Public Health at the University of Porto, Portugal. Currently she is a lecturer in epidemiology at Porto Medical School and doing research at the Institute of Public Health, University of Porto. Her main research area is the epidemiology of musculoskeletal diseases, with a special focus on childhood determinants of osteoporosis and on explaining fragility fractures secular trends. She also focusses on exploring individual and contextual influences on musculoskeletal symptoms. Her second assignment is collaborating in the study of the incidence and predictors of HIV in most-at-risk populations.

JULIAN MAMO, MALTA

Julian Mamo graduated in Medicine and Epidemiology before completing his PhD at King's College London in Ageing and Health. He previously served as Deputy Director of the International Institute on Ageing (UN-Malta) conducting international training and consultancy. He is now heading the Department of Public Health within the Faculty of Medicine and Surgery at the University of Malta and also works in clinical medical practice. He was President of the Malta Association of Public Health Medicine and chaired the 5th European Public Health Conference held in Malta in November, 2012. He coordinates the Masters in Public Health course at the University of Malta and supervises PhD and Masters students. He has also played an active role in public health in Europe through EUPHA of which he is a member of the Executive Board and of the International Scientific Committee.

MARTIN MCKEE, UNITED KINGDOM

Martin McKee is outgoing President of the European Public Health Association (EUPHA). He is Professor of European Public Health at the London School of Hygiene and Tropical Medicine and was the founding director of the European Centre on Health of Societies in Transition (ECOHST). He is also research director of the European Observatory on Health Systems and Policies. He has published over 740 academic papers and 42 books and his contributions to European health policy have been recognised by, among others, election to the UK Academy of Medical Sciences, the Romanian Academy of Medical Sciences, and the US Institute of Medicine, by the award of honorary doctorates from Hungary, The Netherlands, and Sweden and visiting professorships at universities in Europe and Asia. In 2005 he was made a Commander of the Order of the British Empire (CBE).

MICHAEL MOORE, AUSTRALIA

Michael Moore is the CEO of the Public Health Association of Australia and President of the World Federation of Public Health Associations. He is the chair of a number of health networks. Michael is a former Minister of Health and Community Care and was an Independent member of the Australian Capital Territory Legislative Assembly for four terms from 1989 to 2001. Michael is a former teacher, small business owner and consultant who holds a post-graduate diploma in education and a master's degree in population health. He is adjunct professor with the University of Canberra where he is a PhD Scholar examining a framework for planning or evaluating health advocacy. He has widely published. He is also a political and social columnist who has served on a range of academic and community Boards.

JACQUELINE MÜLLER NORDHORN, GERMANY

Jacqueline Müller-Nordhorn is Professor of Public Health at the Charité – Universitätsmedizin Berlin, Germany. She studied Medicine in Munich and Montpellier and Public Health at the University of Cambridge, UK. She worked for several years in clinical oncology before specialising in public health and epidemiology. Her work focuses on the prevention and epidemiology of chronic diseases as well as on health services research. Jacqueline Müller-Nordhorn is president of the Association of Schools of Public Health in the European Region (ASPHER), after having been a member of the executive board for some years. She co-chaired the ASPHER Working Group on doctoral programmes and strengthening research capacity. She is on the advisory board of national institutions (Robert Koch-Institute, German Institute for Risk Assessment) and international committees (French Doctoral Network in Public Health, Agency for Public Health Education Accreditation).

STEPHEN PECKHAM, UNITED KINGDOM

Stephen Peckham is Professor of Health Policy and has a joint appointment as Director of the Centre for Health Services Studies at the University of Kent and as Professor of Health Policy in the Department of Health Services Research and Policy at the London School of Hygiene and Tropical Medicine. He is Director of the Department of Health funded Policy Research Unit in Commissioning and the Healthcare System. Stephen Peckham has over twenty-five years of academic research experience and previously worked in local government and the voluntary sectors. His main research interests are in health policy analysis, organisational and service delivery, primary care and public health. Recent research includes exploring the public health role of general practice and examining the development of the public health system in England post 2013.

VESNA KERSTIN PETRIC, SLOVENIA

Vesna-Kerstin Petrič is currently Head of Division for Health Promotion and Prevention of Non-communicable Diseases at the Ministry of Health of the Republic of Slovenia. She has an extensive national and international experience in working on public health policies and a proven track record of leadership on politically demanding health issues. Among others, she is co-chairing the Global network of WHO national counterparts for implementing the Global strategy to reduce the harmful use of alcohol, member of the Steering Committee of the European Observatory on Health Systems and Policies, member of the Management Board of the EU Monitoring Centre for Drugs and Addiction and is chair of the National coordinating group for the implementation of National Diabetes Plan. She is also holder of a WHO certificate of appreciation (2009) for contribution in tobacco control.

PLENARY SPEAKERS

BOSSE PETTERSSON, SWEDEN

Bosse Pettersson is presently a part time Senior Public Health Adviser, National Board of Health and Welfare, Sweden and an Independent Public Health Consultant. He is also the Vice President of EuroHealthNet and one of its co-founders. Bosse has been actively involved in all global Health Promotion conferences, from Ottawa in 1986 to Helsinki in 2013. For the 9th GCHP in Shanghai 2016 he is a member of Scientific Advisory Committee. Bosse Pettersson took up his career in health promotion and public health in 1976. His main areas of work have been policy development, health inequalities, planning & management, health systems, communication and training. He has worked locally, nationally and internationally. The latter mainly as a consultant in WHO, European Commission and European countries.. He has also been a member of the Swedish government's delegation to WHO governing bodies since the beginning of 1990s.

JOSEF PROBST, AUSTRIA

Josef Probst is General Manager of the Association of Austrian Social Security Institutions. Josef Probst studied law at the University of Linz and began his career in the Social Health Insurance of Upper Austria. In 1991, he changed to the Association of Austrian Social Security Institutions as Deputy General Manager. Probst was appointed as General Manager in April 2013. His main interests are in sustainable, patient-, citizen- and health oriented health care reform which Austria is undergoing at the moment. Sitting in the driver's seat, he is highly involved in the strategic direction and the implementation of policies. Pharmaceutical policy is an additional specific topic of engagement. Josef Probst is a board member of the European Observatory on Health Systems and Policies, member of the Advisory Board of the European Health Forum Gastein and board member of the Health Symposium of the European Forum Alpbach.

PAMELA RENDT-WAGNER, AUSTRIA

Pamela Rendt-Wagner, MD, is Director General for Public Health and Chief Medical Officer at the Federal Ministry of Health, Austria. She trained at the Medical University of Vienna, specializing in Specific Prophylaxis and Tropical Medicine and at the London School of Hygiene and Tropical Medicine, UK. As senior lecturer at the Medical University of Vienna, she has been scientifically active at national and international level in the areas of infectious disease epidemiology and vaccine preventable diseases. She is currently visiting professor at the Medical University Vienna and chair of the Federal Office for Safety in Health and head of numerous national committees. Since 2011 Pamela Rendt-Wagner is heading the national multi-sectoral process of Austrian Health Targets as adopted by the Austrian Council of Ministers.

FABRIZIO RENZI, ITALY

Fabrizio Renzi is the Director of technology and innovation of IBM Italy since 2014. He is in charge of bringing IBM research capabilities into Italian markets. From 2011 to 2013 he was Director of technology and innovation for Italian banks, insurances and financial institutions. In 2009-2010 he was, based in Dubai, and was IBM Director of Systems and Technologies for emerging markets. Since 1997 he worked on leading edge technologies and transformation initiatives for IBM, covering different managerial roles in areas such as: on demand, e-business, e-commerce and network computing. He has a Master degree in Electronic Biomedical Engineering from Politecnico di Milano, he also got an International Executive Program MBA from INSEAD in Paris.

ANDRZEJ RYS, EUROPEAN COMMISSION

Andrzej Rys is Director responsible for health systems, medical products and innovation at the Directorate-General for Health and Food Safety, European Commission. He is a member of IMI Governing Board and alternate member of the European Medicines Agency (EMA) Board. He graduated as a medical doctor from Jagiellonian University, Krakow, Poland. He specialized in radiology and public health and established the school of public health at the Jagiellonian University. From 1997 to 1999, he served as director of Krakow's city health department. In 1999, he became deputy Minister of Health in Poland and developed a new system of emergency medicine and a new education system for nurses. He was a member of the Polish accession negotiators team. In 2003, he established the Centre for Innovation and Technology Transfer at Jagiellonian University. He joined the European Commission in June 2006.

JUERGEN SOFFRIED, AUSTRIA

Juergen Soffried is General Practitioner by training (Burgenland, 2002) and Senior Consultant in Public Health. In 2003, he joined the Upper Austrian Sickness Fund in Linz. Since then he held several positions within the field of social health insurance in Austria. Currently he is employed with the Institute of Health Promotion and Prevention in Graz. His main topics of interest are health literacy and 'Healthy Ageing'.

DAVID STUCKLER, UNITED KINGDOM

David Stuckler is a Professor of Political Economy and Sociology at University of Oxford and research fellow of the London School of Hygiene and Tropical Medicine. He has written over 170 peer-reviewed scientific articles on global health in The Lancet, British Medical Journal and Nature in addition to other major journals. His book about the global chronic-disease epidemic, Sick Societies, was published by Oxford University Press in 2011. He is also an author of The Body Economic, published by Penguin Press in 2013 and translated into over ten languages. His work has featured on covers of the New York Times and The Economist, among other venues. Foreign Policy named him one of the top 100 global thinkers of 2013.

LINDSAY SULLIVAN, IRELAND

Lindsay Sullivan is a PhD candidate in the Discipline of Health Promotion at the National University of Ireland, Galway (NUI Galway), and an Irish Research Council Postgraduate Scholar. She holds a Bachelor of Science in Psychology from Lafayette College (USA) and a Master of Arts in Health Promotion from NUI Galway. Her research interests include health promotion and education, health behaviour change, and injury prevention. Her current research focuses on the development, implementation, and evaluation of a theory-based concussion education programme for youth Gaelic Athletic Association (GAA) athletes and coaches in the Republic of Ireland.

NICOLINE TAMSMA, THE NETHERLANDS

Nicoline Tamsma is President of EuroHealthNet and Co-ordinating Advisor International Affairs at the National Institute for Public Health and the Environment (RIVM), the Netherlands. At RIVM, her main responsibility is to advise the institute's Board of Directors on international policy and strategy with a specific remit for public health, health services research and health promotion. Previous posts included a focus on European policy and health systems research at the Nuffield Institute for Health in Leeds (UK), the co-ordination of cross-national efforts on integrated local HIV/AIDS policies for WHO Europe, and international affairs at the Netherlands Institute for Care and Welfare. Ms Tamsma's longstanding involvement in the European health community is also reflected in her previous membership of the European Health Forum Gastein Advisory Committee (2002-2013) and the European Health Management Association (EHMA) Board.

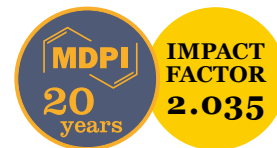

AIDA TANIOS, AUSTRIA

Aida Tanios completed general nursing school successfully before she enrolled in Development Studies at the University of Vienna. After her graduation in 2013, she continued with her master studies in Sociology. Besides her studies, Aida Tanios worked at several hospital inpatient and outpatient departments before she commenced to work at the Austrian Public Health Institute (GÖG) in Vienna. As a scientific collaborator, her key topics include mental health, particularly suicide prevention, as well as addiction in the areas of illicit drugs and the mis/use of psychotropic drugs. Aida Tanios strives to contribute to improved mental health care and an open discourse on mental health promotion, the prevention and treatment of mental health problems. She considers the de-stigmatisation of mental health problems and the people affected a top priority for public health policies.

International Journal of
*Environmental Research
and Public Health*

An Open Access Journal by 

Aims and Scope

Publication of scientific and technical information on the impacts of natural phenomena and anthropogenic factors on environmental and human health.

Author Benefits

Open Access

Free for readers, with publishing fees paid by authors or their institutions.

High Visibility

Indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed), and other databases. Full-text available in PubMed Central.

Rapid Publication

First decision is provided to authors approximately 26 days after submission; the average time between acceptance to publication is seven days.

Can vaccination provide a valuable preventative public health measure to address the challenges of Europe's ageing demographic? Global health experts present their perspectives.

Health for All: Accelerating Prevention in Health Care Systems, the Role of Adult Vaccination

Friday 11 November 2016,
12.50 – 13.50, Room L7

Welcome and scene setting – The current environment

Dr. Jane Barratt, International Federation on
Ageing, Canada

Societal and social value of adult pneumococcal vaccination

Prof David Bloom, Harvard School of Public
Health, United States

The International Federation on Ageing perspective on adult immunisation and healthy ageing

Dr. Jane Barratt, International Federation on
Ageing, Canada

The Greek perspective on vaccination – What can we learn from this preventative approach?

Dr Kostas Athanasakis, Department of
Health Economics in the National School of
Public Health, Greece

Meeting summary, Q&A and close

Dr. Jane Barratt, International Federation on
Ageing, Canada

Pneumococcal disease (PD) describes a group of illnesses caused by the bacterium *Streptococcus pneumoniae*, including pneumonia, bacteraemia, and meningitis. PD is responsible for considerable morbidity and mortality across Europe¹ and causes approximately 1.6 million deaths per year worldwide², of which

an estimated 600,000 – 800,000 are adults³. Pneumonia is the most common clinical form of PD in adults⁴, with *Streptococcus pneumoniae* the most common cause of community-acquired pneumonia⁵. In Europe, the cost of all-cause pneumonia alone is approximately €10.1 billion annually⁶. However, contrary to infant vaccination, adults are far less concerned, or even aware, of vaccination as an effective prevention strategy against pneumococcal pneumonia.

Findings from PneuVUE®, a new study conducted by Ipsos MORI, in partnership with Pfizer, show that across Europe there is a generally poor understanding about the risks and prevention of pneumonia and the existence of vaccines that protect against some bacterial strains of pneumococcal pneumonia. 8 out of 10 adults at risk report they are not vaccinated and the same number (78%) do not feel personally concerned about the risk of catching pneumonia⁷. Significantly, only 3 out of 10 older adults are aware that pneumococcal vaccines exist⁷.

As the European population continues to age – the number of people older than 50 years receiving formal care is expected to double in the next 50 years – demand on health services is likely to increase⁸. Significantly, not all stakeholders, including policy makers and the general public, are aware of the substantial impact that adult immunisation programmes can have on disease prevention and reduction of health care costs.

The symposium will review the role of vaccination as a sustainable public health approach to addressing specific health challenges posed by Europe's ageing population. Focusing on the impact of

pneumococcal disease, and learning from the experience of Greece and non-European countries, including the United States and Canada, experts will discuss how increased public awareness and government support around adult vaccination can deliver social and societal value and support the healthy ageing of individuals. The session will further present some of the findings of the PneuVUE® study, which is also backed by the speakers.

This session is organised by EUPHA and Pfizer Vaccines and funded by Pfizer Vaccines

LUNCH SYMPOSIUMS

RESEARCH, PRACTICE AND POLICY: ALL FOR HEALTH

Friday 11 November, 12:50 – 13:50, Hall E

This lunch symposium, organised by ECDC and EUPHA focusses on the challenges and opportunities of transferring knowledge from research to practice and policy. How to ensure evidence-based practices and policies. Each of the round table participants will present a concrete experience from their field of work followed by discussion with the audience.

With: *Andrea Ammon, Acting Director ECDC; Zsuzsanna Jakab, Director WHO Regional Office for Europe; Isabel de La Mata, European Commission; Ricardo Baptista Leite, Member of Parliament, Portugal; Aura Timen, President of the EUPHA Section on infectious disease control; Gindrovel Dumitra, General practitioner, Romania; Erik Baekkeskov, University of Melbourne, Australia*

HEALTH FOR ALL: ACCELERATING PREVENTION IN HEALTH CARE SYSTEMS, THE ROLE OF ADULT VACCINATION

Friday, 11 November, 12.50 – 13.50, Room L7

Can vaccination provide a valuable preventative public health measure to address the challenges of Europe's ageing demographic? Global health experts present their perspectives.

This lunch symposium is organised by EUPHA and Pfizer Vaccines and funded by Pfizer Vaccines.

With: *Jane Barratt, International Federation on Ageing, Canada, Kostas Athanasakis, National School of Public Health, Greece and David Bloom, Harvard School of Public Health, United States*

TOWARDS REDUCTION OF INEQUALITIES IN EUROPE: CONTRIBUTION OF EEA GRANTS / NORWAY GRANTS MECHANISM

Friday 11 November, 12:50 – 13:50, Room L2

The EEA Grants and Norway Grants represent the contribution of Iceland, Liechtenstein and Norway to reducing economic and social disparities and to strengthening bilateral relations with 16 EU countries in Central and Southern Europe and the Baltics. The lunch symposium also aims to increase awareness of this opportunity during the new period of the Grants, which will last until 2021.

With: *Andrej Grjibovski and Otto Christian Rø, Norway; Šarūnas Alasauskas, Lithuania; Hubert Zycinski, Poland; Diogo Pestana and Conceição Calhau, Portugal; Florian Al Nicula, Romania; Anne Camilla Hilton, Belgium*

ANDRIJA ŠTAMPAR AWARD CEREMONY FOR RICHARD HORTON, EDITOR-IN-CHIEF OF THE LANCET

Friday 11 November, 12:50 – 13:50, Room L4

Each year, ASPHER awards the Andrija Štampar Medal to a distinguished person for excellence in the field of Public Health. This year the Award is presented to Richard Horton, Editor-in-Chief The Lancet. The Laudatio is delivered by *Martin McKee, United Kingdom*

3 MONTHS ACCESS TO THE EJPH

Oxford University Press and the European Public Health Association (EUPHA) are delighted to offer delegates of the 9th EPH Conference – Vienna 2016 – free online access to the European Journal of Public Health from 30 October 2016 until 31 January 2017.

The **European Journal of Public Health** is a bimonthly multidisciplinary journal in the field of public health and provides a forum for discussion and debate of current international public health issues with a focus on the European region. In 2015, the impact factor of the journal is at 2.751. The 5-year impact factor is 2.789.

Login to your EPH Conference account at www.ephconference.eu. Use the same login and password you have used for registering for the conference. Once you have entered, you will see the link to the European Journal of Public Health

If you wish to submit a paper to the journal, please go to:
www.oxfordjournals.org/our_journals/eurpub/for_authors/index.html

Any questions on subscription rates, submitting papers?
Go find us at the OUP stand in the Exhibition Hall

JOIN THE NETWORKS ORGANISED BY EUPHA

Join the networks is an initiative by EUPHA to increase the networking objectives of the EPH conferences. The meetings are organised by the EUPHA sections, the EUPHA pillars, EUPHANxt and the EUPHA working groups.

The Join the Network meetings are open for all delegates. It will allow you to meet and network with colleagues also working on the topic of your interest.

Joining a EUPHA section or EUPHANxt (free of charge) offers a great opportunity to continue your networking beyond the conference.

For more information, please go to www.eupha.org

SOCIAL PROGRAMME

WELCOME RECEPTION

The Welcome Reception is at the Vienna City Hall (*Wiener Rathaus*) on Thursday 10 November 2016 from 19.30 – 22.00 hours. Entrance of the Grand Festival Hall (Festsaal) is Lichtenfelsgasse 2, 1010 Vienna

The Welcome Reception is free of charge.
Entrance of the Grand Festival Hall (Festsaal) is Lichtenfelsgasse 2, 1010 Vienna

CONFERENCE DINNER

The Conference Dinner is on Friday 11 November 2016 from 19.30 – 23.59 hours in the Wiener Rathauskeller restaurant.

Entrance of the Wiener Rathauskeller restaurant is Rathausplatz 1, 1010 Vienna

Please note that drinks other than offered during the dinner are to be purchased at your own expense.

Please note that both the WR and the CD are fully booked. Check your badge whether you are registered

The Vienna City Hall can be reached easily by underground line U2 (purple line). The underground station 'Rathaus' is only about 100m from the main entrance of Vienna City Hall.

The Rathauskeller restaurant can be reached easily by underground line U2 (purple line). The underground station 'Rathaus' is only about 100m from the main entrance of Vienna City Hall.

GREEN CONFERENCE

The EPH Conference is committed to reducing the environmental impact of the conference and finding ways to be more environmentally responsible.

Here are some initiatives we have taken to help minimize the impact of the conference on the environment.

- Refillable water bottles – With your Conference Bag you received a water bottle which you can refill at water fountains located around the ACV. The water bottle is kindly offered by the European Patients Forum (EPF).
- Catering – Coffee and tea are served in recycled cups. Most lunch ingredients are from regional and organic origin. Our provider, Motto Catering offers organic bread by Joseph Brot, Vienna, domestic fish from Gut Dornau, Leobersdorf, and organic vegetables from Haschahof, Vienna.
- Reduced printing – Printing of Posters, Announcements, Invitation Letters and marketing materials is reduced by switching to E-Posters, digital marketing and email communication.
- Abstract submission, registration and invoicing are fully web-based. The Conference Programme and abstracts can be accessed online.
- The Conference Bag is made of recycled materials. The Programme Book is printed on FSC Mix paper. FSC Mix means at least 70% of the wood in the product is from FSC-certified material or recycled material; and 30% is controlled wood. from responsible sources.

AUSTRIAN CENTER VIENNA (ACV)

ACV has a number of environmental policies in place. Visit their website to see their efforts <https://www.acv.at/karussell/karussell31.html>

The exhibition stands have several components that are re-used. Disposable articles like carpets are re-used for packaging materials during transport, etc.

GENERAL INFORMATION

Abstract Supplement

Abstracts of all presentations in the parallel programme are published in the Supplement to the European Journal of Public Health which can be accessed through your personal login at www.ephconference.eu. Delegates of the 9th EPH Conference have free access to the full Journal for a period of three months.

Accreditation

Accreditation of the 9th EPH Conference has been applied for with the European Accreditation Council for Continuing Medical Education (EACCME). Check the Conference website or App for the number of CME credits.

ATM

For cash withdrawals, you will find an ATM at the main entrance of the ACV.

Catering

Lunch is served on the ground floor (Level 0). It is not allowed to take your lunch with you into the conference rooms, except for the Lunch Symposiums.

Conference App

Download the Conference App. Search for 'EPH 2016' on Google Play Store or Apple App Store. App features include Conference Programme, Personalised Programme, Push Notifications, Interactive Maps, Networking with Delegates, Biographies, Practical Information and much more...

Conference badge

Please wear your badge at all times during the conference, welcome reception and dinner. It gives you access to all activities for which you have registered. For replacement of lost badges or other badge-related matters, visit the EPH Conference Registration Desk.

On the front of your badge you will see coloured boxes. The colour of the boxes corresponds with access on different days. When a box is not coloured, no access is allowed that day.

Front

W + Yellow = Wednesday pre-conferences
T + Yellow = Thursday morning pre-conferences
(in this example empty, this means not booked)
T + Blue = Thursday (afternoon main conference)
F + Green = Friday
S + Orange = Saturday

Back

W = Welcome reception
D = Dinner

The acronyms correspond to the registered pre-conferences.

Conference hosts

You will recognise our hosts by their yellow coloured polo shirts. They are happy to help you with your questions.

Cloakroom

You will find the cloakroom in Foyer F, please follow the signs. Use of the cloakroom is free of charge and at own risk and responsibility.

Downloads

Presentations and photographs will be available at the conference website www.ephconference.eu/Vienna2016 within a few days after the conference.

GENERAL INFORMATION

Emergency

The ACV emergency number is +43 676 3199 561 from any other phone. In an emergency situation and for First aid, you may also contact the conference staff or the ACV Information desk – +43 676 3199 500.

E-Poster walks and E-Poster displays

Posters are displayed electronically on TV screens on the Gallery, the screens are clustered in 5 stations showing all accepted posters. E-Poster walks (20 in total) are part of the parallel programme and held on the Gallery. They are divided over the two stations indicated as 'Poster walk R' and 'Poster walk S'. E-posters can be viewed at all times during the conference.

Evaluation

After the conference you will receive an email with a link to the digital Conference Evaluation Form. Your responses will be used to improve the organisation of EPH Conferences.

Exhibition

Do not miss the exhibition stands on Level 0.

Food allergy

Delegates that have provided us with their specific dietary wishes, can collect their lunch at the catering buffet in Hall F1.

Insurance

The EPH Conference Foundation / EUPHA cannot accept liability for personal accidents or loss of or damage to the private property of participants and accompanying persons, either during or indirectly arising from attendance of the 9th EPH Conference. Participants should make their own arrangements with respect to health and travel insurance.

Internet

Free wireless internet is accessible in the conference centre. Network: ACV, no password required.

Language

The official language of the conference is English.

Lost and found

Please contact the EPH Conference Registration Desk at the entrance.

Mobile phones

Please turn off your mobile phones during the sessions.

Mobility constraints

We are committed to making the 9th EPH Conference accessible to the widest range of people possible. If you are a regular wheelchair user you should bring your chair with you. The conference venue is equipped with elevators. Wheelchair users and disabled participants may need assistance in using the elevators. Please do not hesitate to ask the staff.

Publicity

Delegates are not permitted to place or hand out publicity materials, flyers, samples etc. Placing or handing out publicity materials, flyers, samples etc. is only allowed by exhibitors at the exhibition stand and by preconference organisers in the allocated meeting rooms.

Smoke-free

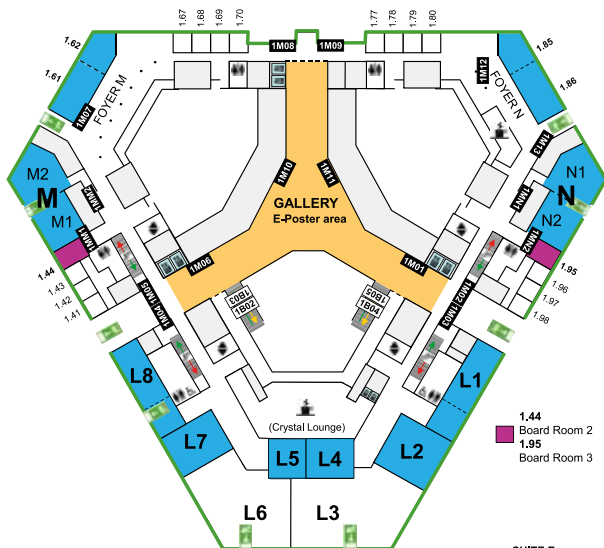

EPH Conferences are entirely smoke-free.

Walking time

To give delegates time to move from one session to the next, the programme allows for 10-minutes walking time in between sessions.
