*Vaccination for  
more sustainable  
public health?*

**11**th European Public  
Health Conference

Cankarjev Dom, Ljubljana, Slovenia from 28 November - 1 December 2018

# Vaccination for more sustainable public health?

Time	Session	Speaker/Chair
12:30-12:40	<b>Welcome and introduction: The importance of vaccine coverage regardless of age</b>	<b>Marko Pokorn</b> University Medical Centre Ljubljana
12:40-13:00	<b>Lifecourse vaccination – a tool for closing the healthy aging gap</b> <i>Talk focusing on the significant inequity in healthy life expectancy between Western and Central/Eastern EU countries, discuss the very low vaccine coverage among adults in the Central/Eastern EU countries, together with the recent history of vaccine-preventable disease outbreaks. A call for more focus on healthy aging and prevention as healthcare priorities.</i>	<b>Timothy Mark Doherty</b> GSK Vaccines
13:00-13:20	<b>The Overall Public Health Value of Pneumococcal Vaccination</b> <i>Talk focusing on actual and potential impact of Pneumococcal Conjugated Vaccines (PCV) on the epidemiology of Invasive Pneumococcal Diseases in European and broader worldwide context. Providing success stories for PCVs in high vaccination coverage settings. Presenting current expertise and health authority guidance on the factors to consider when choosing which of the existing vaccines to use in specific setting.</i>	<b>Bruce Mungall</b> GSK Vaccines
13:20-13:30	<b>Panel discussion and Q&amp;A</b>	<b>Marko Pokorn</b> University Medical Centre Ljubljana

Organised by GSK Vaccines, **Friday 30 November 2018, 12:30 - 13:30**, Ljubljana, Cankarjev dom, **M3+4**
