World Health Organization

1. Advancing governance and leadership

- **Participatory governance** through mechanisms to ensure accountability

- Developing **roadmaps** for the implementation of the SDGs in countries

- Ensure Global and regional health and **human rights commitments are implemented**
  - E.g. Tobacco convention, International Health Regulations, Human Rights

- Goal 16: Develop effective, accountable and transparent institutions at all levels

- Strengthening existing **public health institutions**, their capacities and resources

How do we get there?

- 2. Increase **H**ealth equity - Leaving no one behind

- 3. Preventing disease, improving **H**ealth determinants and reduce risk factors throughout the life course

- 4. Establishing **H**ealthy places, settings and resilient communities

- 5. Strengthening health systems for **Universal H**ealth Coverage

World Health Organization

Health Literacy, Research and **I**nnovation

Multipartner **C**ooperation

Investment for

Account
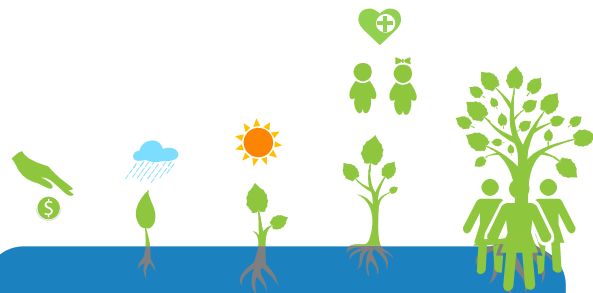

How do we ensure progress?

Data and monitoring: Health information system

Common set of midpoint milestones monitoring

Multistakeholder tracking platforms

Engage the national parliaments

Systematic follow-up process

Dr. Bettina Menne

Coordinator, Sustainable Development and Health (SDG)
**Division of Policy and Governance for Health and Wellbeing (PCR)**

2020-2022 : Public Health Heros

@ben_cave

European campaign for "Health presidents"

"Health is a political choice :

choose politicians who make the good choice for your health!"

Health in All Policies Age in Europe

No decision can be made

- without an Health Impact Assessment, including equity measures
- 30% of directly concerned people involved (youth, migrants, disabilities, rural…)

Health is a political choice

Scaling up our successes in Europe to other regions : equity is global !

Leave no one behind

Lets see what you had to say
